

RESTART – MEET THE PRIMES

On 8th October we held our Meet the Primes event. The event was held to provide an opportunity for networks to meet the different primes covering the Yorkshire & Humber area, find out more about the programme and offer, and develop relationships and referrals to support skills development, employability and positive destinations for Restart clients.

REED IN PARTNERSHIP - YORK, NORTH YORKSHIRE & HUMBER

Reed provided the partners with a comprehensive overview of the eligibility criteria, participant's and the key partnership managers to contact. Reed are actively working with the local authorities, combined authorities, LEPS and other community partners to ensure they can respond to local challenges and priorities and meet the needs of its participants on the Restart programme. We were provided with clarity as to the participant's journey on the programme from initial meeting through to job outcome with dedicated teams of specialists which will support learners from a particular background and need such as executive coaches for participants of a high skill and earning level. The room was fully engaged with questions arising regarding trends seen which currently there is need for H&SC, Transport and logistics. Reed in partnership are establishing relationships with local training providers, if you would like some more information on how to work with Reed please get in touch with them directly or contact one of the WYLP team.
