

MEMBER VISIT *Anglo-American*

AngloAmerican are an employer provider based in Scarborough, North Yorkshire. They specialise in **engineering & cybersecurity**.

Since 2018, they have taken on **42 apprentices**. They have created a Cyber Security Apprentice Centre of Excellence, based at the office in Scarborough. Providing a two-year, Level 4 apprenticeship, the first cohort of Cyber Security apprentices started in 2022, with a second group joining them in October 2023.

NEWS and UPDATES from provider:

Anglo American has reported an increase in its contribution to the regional economy over the last year through the Woodsmith Project, its game-changing polyhalite mine near Whitby. In 2023 the project generated an additional £305 million to the region's economy, bringing the total contribution to £1.5 billion since construction started in 2017.

The project is now employing over 1,400 local people, which is 70% of the total workforce, far exceeding what was expected at this point in construction.

The company continues to deliver wide-ranging community initiatives across the area and last year, its social investment programme included the launch of a new educational outreach programme and enabled the creation of 73 new local business start-ups.

How AngloAmerican benefits from a YLP membership

We asked Apprenticeship Delivery Specialist, Emily Fraser, for her thoughts on the benefits of a YLP membership. She described the following:

We joined YLP following my career with the Army, and I was not familiar to the region. I felt that I needed to know local organisations that knew what they were talking about.

I really like to drop in sessions, both face-to-face and virtual. It is good to regularly brush up on our skills and know that someone is out there doing the research into the areas safeguarding trends.

YLP work with our providers to better understand what they are looking for, and what we can do to further support local FE.
