

# MEMBER VISIT Scarborough TEC

Scarborough TEC delivers study programmes that are directly related to current and future labour market needs, thereby supporting the region's vocational and technical skills requirements and the local economy. They are a further and higher education college in Scarborough supported by a larger college group, the **TEC Partnership**.

## **NEWS and UPDATES from provider:**

The top area of focus for Scarborough TEC over the next year is T-Levels; the college already run T-levels in Health & Early Years Education, and by the end of 2024, they are aiming to run T-levels in Electrical and Construction provision. This will be a big focus for the college over the next 12 months, to further develop and drive forward.

The college also have LSIF priorities, with a focus on Health & Social Care and Digital skills. From their roundtables with local employers, they have found that softer skills are the biggest concern, such as communication and general employability. They are aiming to develop study programmes that focus on this employer feedback.

## **How Scarborough TEC benefit from a YLP membership**

We asked Vice Principal, Simon Gummerson, for his thoughts on the benefits of a YLP membership. He described the following:

*Yorkshire Learning Providers allows access to a wider network, local employers and ensuring our offer is current & relevant.*

*The CPD opportunities we access a lot of, we've really benefited from YLP opportunities, especially the face-to-face workshops and conferences.*

YLP work with our providers to better understand what they are looking for, and what we can do to further support local FE.
