Construction Skills People

Established in 2008, **Construction Skills People** deliver a wide range of **vocational qualifications and commercial training courses** specifically for the construction sector. Their in-depth industry knowledge allows them to advise their clients through the complex minefield of Health & Safety legislation and regulation. **They are the UK's leading provider of construction-related work-based qualifications** and offer a broad range of NVQs that help their clients ensure they are CSCS and CPCS compliant.

NEWS and UPDATES from provider:

Construction Skills People are excited to share the progress being made in supporting women in construction, as well as share good news case studies to highlight the work being done by their motivated team.
[Read the case studies here.](#)

A significant development on the horizon is the anticipated growth in Yorkshire, with a focus on both East & West Yorkshire. The recent opening of the Hull Skills Academy underscores the commitment to meeting local skills needs.

Recognizing the urgent need for skilled workers in the industry, employers are involved in the interviewing process right from the start, ensuring that the training provided is tailored to meet industry demands.

This update signifies the ongoing dedication of the CSP to empower women in construction and address the skills gap in the sector, with a particular focus on Yorkshire's unique needs and achievements.

How CSP benefit from a YLP membership

"YLP is fantastic! Out of all the networks, they are the best one to work with. They are responsive, supportive, and always answer straight away. I love the information they send out. YLP is the local network for Yorkshire."

**Andrew Sheppard, MD,
Construction Skills People**

YLP work with our providers to better understand what they are looking for, and what we can do to further support local FE.
