

# MEMBER VISIT *Motive8 College*

**Motive8 College** is dedicated to providing study programme vocational qualifications and courses to help young people work towards their ambitions and design their future. **The success of their students is at the heart of everything they do.** Motive8 work with young people in a holistic way, providing them with opportunities to grow and develop in an environment that suits their needs. They offer a bespoke programme of education, skills development, and support to help young people achieve their aspirations – whatever they might be.

## **NEWS and UPDATES from provider:**

The leadership team at Motive8 are most proud of the achievements of their students this year, with many gaining A\* equivalent outcomes and university places being offered to more students.

They have supported 150 learners from across Bradford & districts, and they are impressively passionate about their students and committed to ensuring they move into positive destinations. The team shared many examples of their students' destinations including moving into criminology, law, midwifery, teaching and they have even employed some of their ex-students!

They are also extremely proud of how committed their staff are to developing these young people, who many would not be able to access education if not for Motive8.

The team are also proud to have regained their Matrix standard this year, and to have won the YLP 20th Birthday awards for outstanding study programme provider!

## **How Motive8 College benefit from a YLP membership:**

We asked Managing Directors, Moy Grange & Mel Simpson, for their thoughts on the benefits of a YLP membership. They described the following:

*"We appreciate the team at YLP fighting the cause for independent training providers and we are so appreciative of the support you and your team provide us, with the access to up-to-date information, CPD, networking, OTLA, and many other opportunities that enable us to thrive and grow."*

**YLP work with our providers to better understand what they are looking for, and what we can do to further support local FE.**
