# About Us

YLP is the largest network of learning & skills providers in the Yorkshire region and one of the largest networks of its kind in the country.

YLP is a membership-based organisation working to support members in the delivery of Apprenticeships, employment and skills provision.

Our network members include independent training providers, voluntary and community organisations, further education colleges, local councils, partnerships and individuals who are delivering employment and skills provision across Yorkshire.

YLP has over eighteen years of experience in partnership working and network support & have excellent communication channels with government agencies such as the Education & Skills Funding Agency, National Apprenticeships Service, National Careers Service and Jobcentre Plus and local MCA's.

YLP recognises & praises the importance of local partnership arrangements, local training providers & a localised skills offer & the need for providers to have a voice and be represented at district level.

Therefore, we have developed the Yorkshire Apprenticeship Service, A localised response to the apprenticeship recruitment landscape, we support both learners & employers via the website and advertise our members' provision to both schools & local employers.

YLP engages strategically across West Yorkshire, York & North Yorkshire, East Yorkshire & South Yorkshire. We have direct links to Ofsted, the Department for Education, the Department for Work & Pensions, the Department for Energy Solutions & Net-Zero, & the Department for Business, Energy & Industrial Strategy. This is also the case for employer groups such as local Chambers of Commerce & the LSIP/LSIF leadership groups.

We represent our local members at a regional, northern & national level, with connections to all Yorkshire devolved & non-devolved authorities.
